

Press release April 20, 2021

Changes in SciBase's financial calendar for 2021

SciBase Holding AB ("SciBase" or the "Company") has updated the Company's financial calendar for 2021.

As the previous published date for the interim report for the first quarter, May 13th, is a national holiday, the date has now been changed to May 12th.

The updated financial calendar is set out as follows:

May 12	Interim report Q1 2021
May 18	Annual general meeting 2021
August 19	Interim report Q2 2021
November 11	Interim report Q3 2021

About SciBase and Nevisense

SciBase AB is a global medical technology company based in Stockholm, Sweden that develops unique point-of-care devices for the evaluation of skin disorders such as skin cancer and atopic dermatitis. SciBase's first product, Nevisense, helps clinicians detect melanoma, the most dangerous type of skin cancer. Further development has led to Nevisense also being used as a tool to assess the skin barrier and non-melanoma skin cancer. Nevisense is based on substantial research and has achieved excellent results in the largest clinical study ever conducted on the detection of malignant melanoma. Nevisense is CE marked in Europe, has TGA approval in Australia and an FDA approval (PMA) in the United States. SciBase technology is based Electrical Impedance Spectroscopy (EIS) combined with Artificial Intelligence (AI) algorithms that interpret the varying electrical properties of human tissue to detect malignancies and abnormalities. SciBase Holding AB is listed on First North Growth Market ("SCIB"). Further information is available at www.scibase.com.
